## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, and 3-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The examiner has not found a communications apparatus for storing and managing three types of frames [(a) speech frames carrying speech signals, (b) data frames carrying data signals, and (c) integrated frames carrying both speech and data signals], wherein a frame controlling means integrates the (a) speech and (b) data frames into the (c) integrated frames; and also performs routing control of the three frames; and also allows the (a) speech frames to occupy as much bandwidth as required (both in the integrated frame as well as the stand-alone speech frames), while assigning the remaining bandwidth to the (b) data frame, wherein the data frame contains packets to each of which the QOS priority is set; and an outputting processing means for storing and transmitting the (a) speech frames, (b) data frames, and (c) integrated frames, which are routed by the frame controlling means while dynamically setting the bandwidth ratio for the (a) speech, (b) data, and the (c) integrated frames.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A Mais whose telephone number is (571) 272-3138. The examiner can normally be reached on 8:00-4:30.
